"Sammies" on the Watch

Guarding our lines is like guarding our health—we must encourage the care of our bodies—train our organs for bodily endurance, efficiency and full achievement. We must take advantage of all the known means to conserve our health. It is not so much a necessity to fight disease as to cultivate health for long life, happiness and contentment.

If we wish to prevent old age coming too soon or the sudden attack of lumbago or rheumatism, if we want to increase our chances for long life—Dr. Pierce says: "Keep the kidneys in good order! Try to eliminate through the skin and intestines the poisons that otherwise clog the kidneys. Avoid eating meat as much as possible; avoid too much salt, alcohol, tea. Try a milk and vegetable diet.

Drink plenty of water, obtain Anuric for 60c at drugists, and exercise so you perspire—the skin helps to eliminate toxic poisons and uric acid."

For those past middle life, for those easily recognized symptoms of inflammation, as backache, scalding "water," if of uric acid in the blood has caused rheumatism, "rusty" joints, stiffness, get Anuric at the drug store, or send Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10 cents for trial package of Anuric, which you will find many times more potent than lithia and eliminates uric acid as hot water melts sugar. A short trial will convince you. Send a sample of your water to Dr. Pierce and it will be tested free of charge, or write for free medical advice.

Anuric is a regular insurance and lifesaver for all big meat eaters and those who deposit lime-salts in their joints.—Advt.

WILSON MESSAGE
CHEERED BY 6,000
LABOR DELEGATES

Telegrams on Calling Off of Strikes Read at Convention by Gompers.

BUFFALO, Nov. 14.—The telegrams to and from President Wilson in regard to the calling off the strikes at plants being constructed for Government use in connection with the war were read by President Gompers to the 6,000 delegates at today's session of the American Federation of Labor. President Wilson's message expressing appreciation for the patriotic action of the Federation was greeted with cheers.

The situation at Newark was represented to be satisfactory. At Boston the union officials are awaiting the arrival of two of their representatives who left here last night. James A. Howlett, Business Agent of the Allied Trades Council, and Secretary Toomey of the Carpenters' District Council, will attend a meeting in Boston this afternoon.

Hugh Frayne, a member of the War Industries Board, and President John Donlin of the Building Trades Department, have gone to Washington to confer with Government officials on a final settlement of the grievances of the men who have been on strike.

The President's telegram to the convention was as follows: "Your telegram has cheered me very much and I hope you will convey my sincere thanks and appreciation to those associated with you in the patriotic action of which you give me information. You may be sure there will be all possible co-operation at this end."

The American Federation of Labor has no actual authority over the adjustment of disputes between local unions and employers other than of an advisory character, but it is satisfied with President Wilson's assurances of fair treatment, and impressed with his announcement that neither capital nor labor would be permitted to prevent the country from winning the war against Germany.

'VOTES FOR WOMEN'
TO ADD \$1,000,000
TO ELECTION COSTS

Board Begins Plans for Registration—City's Districts May Be Doubled.

Votes for women to cost New York City \$1,000,000 a year in the form of additional election machinery. This is the estimate arrived at today by Edward F. Boyle, President of the Board of Elections. The annual cost of elections, without Woman Suffrage, is \$1,240,000.

The board began preparing legislation today which will revolutionize the present plan of mapping out election districts.

Under the present system the Boards of Elections in various municipalities do not fix election districts until the official registration figures have been tabulated. Where there are more than 400 voters to an election district the board has a right to make provision for a new district.

The Board of Elections seeks the power to go ahead with the work of redistricting in this city before the registration figures for 1918 are ready. In order to accomplish this a registration day for women voters alone will be held at the earliest possible date.

At the present time there are 2,060 election districts in the city. Commissioner Boyle figures that by the time the women have registered this number will have to be doubled.

An expert from the Board of Elections has left for Chicago, where he will make a study of the methods employed there in getting out the women's vote.

It is understood the Chicago plan is the best of its kind as applicable to a large city, and it probably will be adopted here. If the registration of the women's votes shows that they are as numerically strong as the men, the women will demand that they have as many representatives as the men on each district Election Board.

Inasmuch as each board names its Chairman, it is not unlikely that at the next election in which women vote one of their sex will be chief supervisors of the ballot box and poll books. Women prominent in the long fight for suffrage in this State have already decided on the demands they will make on the Election Board.

than an hour, none of the committees being ready to report. Union-made "smokes for soldiers" claimed the attention of the delegates during the greater part of the time. President A. McAndrew of the Tobacco Workers' Industrial Union of Louisville brought up the matter.

"Thousands of men," Mr. McAndrew said, "have been taken out of civil life within the last few months, many of whom now find it difficult if not impossible to secure tobacco such as they have been accustomed to using. On behalf of the tobacco workers I appeal to the delegates here to interest themselves in behalf of union-made goods."

Mr. McAndrew further suggested a smoke fund, to be turned over to the Tobacco Workers International, to be expended for the use of union men.

This suggestion, put in the form of a resolution, was adopted unanimously. Mr. McAndrew was made Chairman.

A telegram was read from Mrs. Carrie Chapman Catt thanking the Federation for its assistance in the cause of equal suffrage and asking as the next step the adoption by the convention of a resolution urging favorable action by Congress of a National Suffrage Amendment to the Constitution.
